## Our Company

**Since its inception in 1969, Pegasus Building Services has remained a leader in the cleaning services industry.**

**Your continued satisfaction is our primary goal.**

Pegasus Building Services began in 1969. Over the years, as the business grew and the biotechnology and high-technology industries expanded in Southern California, Pegasus Cleanroom Services was developed as a separate company to meet the specialized needs of corporate and industrial customers requiring service in those fields.

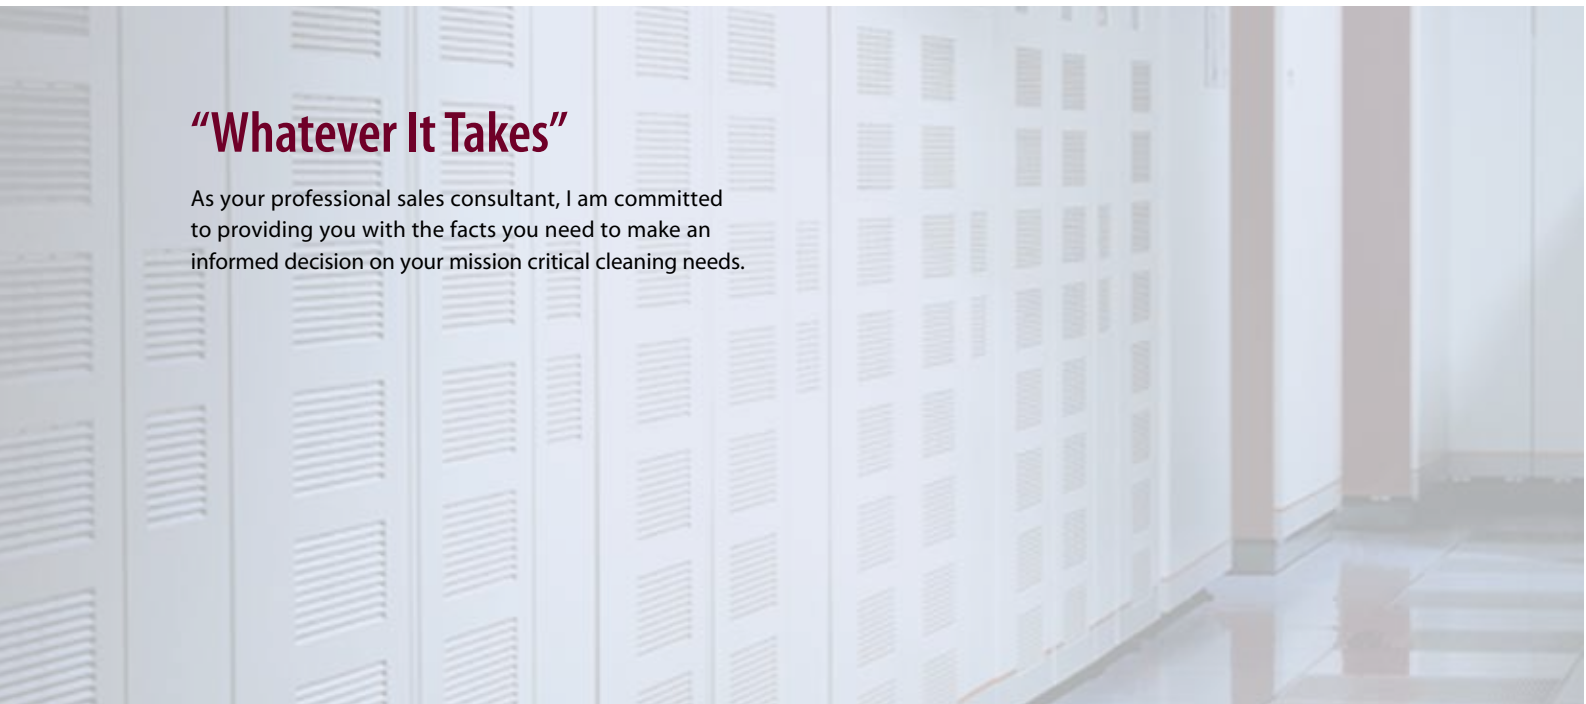

To ensure individualized service, this independent company is staffed by its own specially trained managers and employees.

Today, as an ISO 9001: 2008 registered company, we serve a growing number of clients throughout the nation as one of the most recognized names in cleanroom services.

## “Whatever It Takes”

As your professional sales consultant, I am committed to providing you with the facts you need to make an informed decision on your mission critical cleaning needs.

*At Pegasus Cleanroom Services, we understand the theory of controlled environments. Our reliable, expertly trained and supervised technicians understand the importance of cleanroom protocol to meet Federal and ISO standards of compliance. As an ISO 9001: 2008 registered company, we meet the industry's highest requirements for quality, safety and training. Our highly trained personnel, cutting edge equipment, and attention to detail assure you exceptional service, customized specifically for eliminating contaminant threats in your manufacturing or critical environment.*

## **Comprehensive Cleanroom Services**

**Pegasus' Cleanroom Services provides customized, industry-specific cleaning solutions for all types of controlled environments.**

Named 2006 Contamination Control Company of the Year, Pegasus Cleanroom Services provides personalized cleaning solutions for all types of controlled environments, including: pharmaceutical, electronic and microchip manufacturing plants; GMP facilities; life science laboratories; data centers; and computer rooms.

Our customized client support ensures you receive cleanroom services specifically adapted to your needs, including designing and implementing contamination control and maintenance programs for ISO 14644 Classes 1 to 8.

# Critical Environment Cleaning

**Pegasus is a recognized leader in critical cleaning services for the biomedical and life science fields. We can plan and implement a cleaning program that meets the most exacting of standards.**

We understand the theory of critical environments. Our staff is highly trained in critical environment protocol, adheres to federal and ISO standards of compliance, and is furnished with the latest in equipment and technology. We are ISO 9001:2000 registered.

Pegasus team has the expertise and experience to properly design and implement a maintenance program for manufacturing environments from ISO Class 1 to Class 8. We will be able to assist your organization in the following areas:

- ▶ Critical environment sterilization
- ▶ Contamination control
- ▶ Microcleaning
- ▶ Microbial environmental testing
- ▶ Particle count certification
- ▶ ESD floor care and testing
- ▶ Level I, II and III cleaning
- ▶ Written SOPs
- ▶ Nightly, weekly or monthly service
- ▶ Super-cleans and shutdown cleans
- ▶ Protocol development
- ▶ Critical environment audits
- ▶ Certification consulting
- ▶ Training and documentation

**Pegasus Cleanroom Services is a specialty company focused on providing cleaning and related services for critical environments of all types.**

# Data Center Cleaning

**Pegasus' highly trained, professional supervisory staff has the knowledge and experience to design and implement maintenance programs for data centers of all types.**

Our team of trained supervisory staff and quality control personnel has the expertise required to design and implement maintenance programs for data centers of all types, including data processing, call center, command center, web hosting, colocation and telecom facilities.

Pegasus data center services specialists are expertly trained and furnished with the latest equipment, including HEPA and ULPA vacuums. Our critical environment specialists undergo rigorous, specialized training prior to each new-job start, regardless of previous experience.

Below are some of the specialty data center services that Pegasus provides.

- ▶ General cleaning
- ▶ Access floor cleaning
- ▶ Subfloor cleaning
- ▶ Equipment surface cleaning
- ▶ Subfloor sealing and encapsulation
- ▶ Environmental sampling and reporting
- ▶ Disaster recovery cleaning
- ▶ ISO testing and room certification
- ▶ Anti-static floor care and monitoring

**We strive to provide the best service in the cleaning industry, continually working to meet the ever-changing needs of our clientele.**
